## Our People

Right at Home's professional care team provides just the right care your loved one needs.

Most home care agencies are legally restricted from providing skilled care, even including medication setup. Without the proper licensure and nursing oversight, these agencies put your loved one at risk. By working with Right at Home, you can be assured that your loved one is under the care and supervision of skilled nurses who are part of an agency that is licensed by the state and/or local authorities. And, that brings peace of mind to you.

Call us today to inquire about our in-home nursing care services so we can help keep your loved ones right at home.

## Our Mission

Right at Home can help keep your loved one safe and well cared for at home when many other agencies are unable to do so. This allows Right at Home to fulfill its mission of improving the quality of life for those we serve.

Right at Home provides in-home care services to clients and equal employment opportunities to employees and applicants, without regard to race, color, religion, sex, national origin, age, disability, or other protected class, in compliance with all applicable federal, state and local laws.
