

As our country continues to push through the COVID-19 pandemic, your industry has the added strain of caring for the most vulnerable population and doing what you can to help keep them healthy and safe in their homes. One of the many challenges, especially for those who are quarantined or otherwise required to stay in their homes, is the ability to access healthy, fresh food.

To help address this issue, Eat Fit Go is offering Right at Home's employees, caregivers, clients, and their families a 20% discount on Eat Fit Go's healthy and safe, ready-to-eat, vacuum-sealed meals (14-day refrigerated shelf life).

Eat Fit Go is able to ship a selection of our fresh, healthy, pre-packaged meals directly to consumers and their loved ones across most of the United States.* Please visit www.eatfitgo.com for meal descriptions, nutritional values, retail locations and other information.

Right at Home employees, caregivers, clients, and families can use coupon code "RightAtHome" at online checkout (www.eatfitgo.com) for 20% off their order.

If you are a franchisee who would like to have your caregiver take manual orders from your clients, please contact matt.travers@eatfitgo.com for an order form and instructions on bulk ordering.

For more information on the nutritional content of the meals or for additional educational resources you can share with your clients and caregivers, please contact Eat Fit Go's registered dietitian, Jessie Popelka (jessie.popelka@eatfitgo.com).

In these difficult times, Eat Fit Go is honored to work with Right at Home, a world-class home care provider, to provide access to healthy meals for those who need it most.

Respectfully,

Brock Hubert
CEO
