Dear Renee,

On behalf of the officers and firefighters of the Cedar Rapids Fire Department I wanted to thank you for the excellent training program you provided to our staff on June 14th, June 21st, and June 28th. Dementia Live provided insight into the lives and conditions of our patients.

We regularly train and discuss medical conditions that occur in our community. However Dementia Live provided a unique opportunity for all of our employees to go beyond the discussion and understand how some physical challenges impact our citizens.

Thank You,

Andy Olesen
